

PRODUCT INFORMATION

The Challenger L500G Flashlight

Microfire® Challenger L500G weapon light produces a blinding beam up to 900 lumens for 60 minutes with an effective beam throw over 400 yards batterfield forward.

Mounting to shotgun, L500G is the illuminator at lower beam state for door breaking-into, then switch to full beam to overwhelm resistance of opponents in 40 yards.

Rugged aerospace-grade aluminum CNC machined body, hard anodised finishing, O-ring sealed, high transparency optical lens, compact size, light weight and long runtime make it a good illuminator for your gun.

NEW

Physical Description:

Type	NON-Rechargeable
Model	L500G
Lamp	CREE Q5 LED x 7
Power	Max.12W
Battery	4 × CR123A battery
Switch	4-stage single tactical button
Output / Runtime	900 lumens @ 1 hour (Fullbrightness) 100 lumens @ 8 hours (Low beam) 900 lumens @ 1 hour(strobe, 3~5Hz)
Colour temp	6000K
Working temperature	-10°C - +50°C
Bezel diameter	76mm
Housing diameter	25.4mm
Length	182mm
Weight including battery	700g approximately
Water resistant	Splash proof
Package	Gift box

Components Information

Primary components:

- 1 x L500 7-LED reflector assembly
- 1 x L1 electronic housing
- 1 x G4 4 x CR123A battery tube
- 1 x GF gun cable switch tailcap
- 1 x gift box

Optional parts:

- K2 8 x CR123A battery holder
- K1 red filter 600nm
- K1 yellow filter 450nm

PACKING:

GIFT BOX

Unit: mm
