

MicroFire® T500G HID Flashlight

★ High Intensity Discharge (HID) flashlight features the latest developments in portable HID illumination technology applications.

★ Perfect combination of somatology engineering compact ratio body with powerful tactical-level white beam output of 700Lumens at a weight less than 1.0 pound.

★ Rugged aerospace-grade aluminum CNC machined body, hard anodised finishing, O-ring sealed, high transparency optical lens, compact size, light weight make it a good choice for professionals such as military, police personnel, hunting etc.

Physical Description:

Type	Non-Rechargeable
Model	T500G
Lamp	K1 10W HID lamp, life span 1000 hours (accumulative)
Power	10W
Battery	3 × CR123A disposable Li-ion battery
Beam divergence	6°-19°adjustable
Colour temp	5200K
Output / Runtime	700Lumens @ 50 minutes
Working temperature	-10°C - +50°C
Housing diameter	25.4mm
Bezel diameter	45mm
Length	206mm
Weight including battery	300g approximately (0.66 pounds)
Water resistant	Splash proof

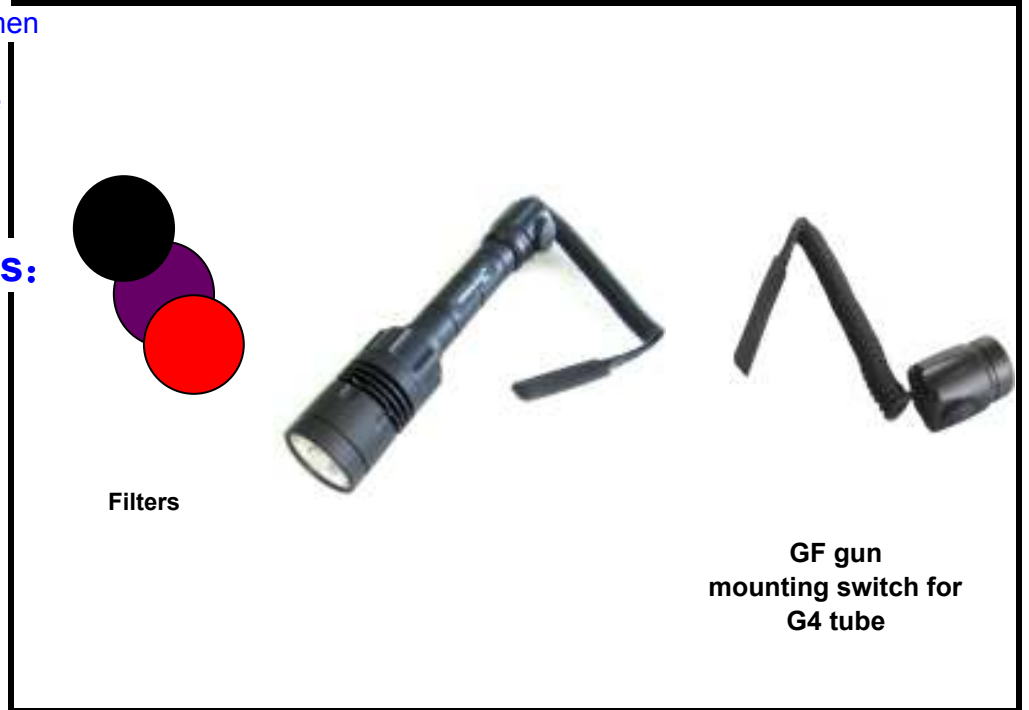

PRODUCT INFORMATION

Components:

- 1 x K1 HID - bulb, 10W, 700 lumen
- 1 x T1 Bezel-reflector assembly
- 1 x G4 4 x CR123A battery tube
- 1 x GF gun cable switch tailcap

Optional components:

- M - red filter 600nm: USD25/pc
- M - IR filter 850nm: USD45/pc
- M - UV filter 365nm: USD45/pc

Packing:

GIFT BOX

unit: mm
